Community Story

Building Mentally Fit School Communities

Mounties is honoured to invest \$200,000 through a ClubGRANTS Category 2 donation to bring the Gotcha4Life Mentally Fit Schools (MFS) program to 10 schools across the Fairfield and Liverpool LGAs in 2026. This transformative initiative doesn't just teach wellbeing, it embeds mental fitness into the everyday fabric of school life, giving students, teachers, and families the lifelong tools they need to stay strong, connected, and resilient.

Led by dedicated Mental Fitness Educators, each school receives tailored action plans, staff development, student learning experiences, and meaningful parent engagement. By remaining with each school community for at least three years, these educators help shape a culture where connection comes first, emotions are understood, and seeking help is seen as a sign of strength.

With half of all adult mental health challenges beginning before age 14*, early intervention is not just important, it is life-changing. Equipping young people with mental fitness skills now means giving them a safer, more confident future, one where they know how to cope long before crisis points arise. This program will reach up to

8,000 students, teachers, and families, with every dollar staying right here in our local community. The impact stretches far and wide, reducing pressure on crisis services, easing teacher burnout, strengthening family communication, and embedding mental fitness as a core part of everyday learning, not an optional extra.

Mounties is profoundly proud to partner with Gotcha4Life in shaping a future where every young person grows up with the emotional skills, strong connections, and confidence to ask for help, not just today, but for the rest of their lives.
